Press release, November 8, 2013

## Formpipe receives order from a Danish municipality valued at SEK 2.9 million

A Danish municipality and Formpipe sign a contract regarding implementing and maintenance of the ECM product Acadre. The total order value amounts to SEK 2.9 million for a duration of four years.

Following a tendering round, the municipality has entered into an agreement with Formpipe regarding implementation and maintenance of the ECM product Acadre. The product was selected based on the best score on "value for money" amongst five competitive proposals.

"We are very pleased that yet another municipality has selected to cooperate with us. The deal strengthens our position as the leading provider of document and case management solutions for the Danish public sector. Danish municipalities are focusing on efficient case management in order to streamline workflows and thereby provide citizens and companies with the best service level possible, i.e. the core capabilities of our solution." says Christian Sundin, CEO of Formpipe.

Of the total order value, license revenues of SEK 0,3 million are recorded in fourth quarter of 2013, while associated revenue will be allocated throughout the contract period.
