"19 % increase in ARR compared to last year"

Christian Sundin, CEO Formpipe

This is a translation of the original Swedish version. In the event of any discrepancies between the two versions, the original Swedish version shall take precedence. The information was submitted for publication, at 08.45 CET, 27 October 2022

Stable quarter with the start of a positive earnings trend.

We are executing on our growth strategy and showing 10 % year-on-year growth for the third quarter. We are now starting to see a positive trend where our scalable business model gradually will generate higher margins the coming quarters.

The investments we made in our own delivery organization within the Swedish public sector business area and the expansion within the Private business area are now beginning to yeald returns. However, the quarter is weighed down by temporarily lower delivery revenue within the Danish public sector business area.

We continue to deliver strong ARR growth. Compared to the previous year, we are growing ARR by as much as 19 %, from SEK 291 million to SEK 345 million.

Delivery revenue continues to increase in Sweden as a result of our transformation to become a comprehensive supplier of e-government to the public sector. Compared to the previous year, we more than double the delivery revenue, both through organic growth and thanks to the acquisition of Alkemit.

After the end of the quarter, we are very pleased to be able to announce that we have been awarded a large deal by the Danish Board of Agriculture. The work to win the business has, however, affected the billability in the quarter and resulted in temporarily lower delivery revenue in the Danish business than normal. We have also launched a new version of our product TAS, which in the short term negatively affected delivery revenue. We continue to show strong growth in SaaS sales. Compared to the previous year, our ARR has increased by 47%, from SEK 78 to 114 million. Most of this growth takes place in the Private business area, which shows a growth of 53% in SaaS-ARR. Within the Private business area, demand remains strong within the Microsoft Dynamics business in all markets. However, we note that the banking sector shows longer sale cycles, which affects are deals with Temenos.

In conclusion, we have a stable quarter in line with our plans and look forward to the closing of 2022.

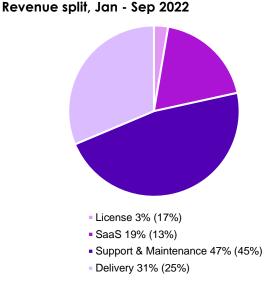

Christian Sundin, CEO Formpipe

Revenue

July - September 2022

Net sales for the period increased by 10 % compared to previous year and totalled to SEK 117.4 million (106.4 million). Software revenue increased by 15 % from the previous year and totalled to SEK 84.3 million (75.6 million).

During the period, a new warrant program (2022/2025) has been issued to the company's employees, amounting to 93,800 warrants, which provided the company with payments of SEK 0.3 million (1.3 million).

Content Services

Data and information become more and more important for the financial development: it is the foundation for many new products and services, which leads to productivity and resource efficiency gains in all sectors of the economy. Being able to take advantage of the possibilities of digitalization has become one of the most important issues of our time. The benefits of being able to collect, process and present data are extensive.

Formpipe's products are used to create, store, distribute, automate, relocate, archive and manage information, data and metadata regarding e.g. scanned documents, e-mail, reports, records, business documents or information from other source systems. The goal is to be able to refine and analyze content from one or more sources, to thereby provide the right insights by the right people receiving relevant information when they need it. It is in the Content Services (previously Enterprise Content Management) market that Formpipe has grown to become a market leader in the public sector and a strong challenger in the private sector where we digitalize and streamline customer communication in sectors such as retail, finance and manufacturing.

The growth in the market is fuelled in large part by the organizational and corporate-wide need to streamline operations and meet legal requirements and regulations. To be able to get the value out of the collective amount of information at companies and organizations, applications and services are needed – in order to securely – collaborate, search, analyze, process and distribute data and content. Growth drivers tend to gain strength as the amount of data and information increases.

Gartner's forecast for the global market is an average annual growth (CAGR) of 10 percent in 2020-2024. The Content Services market is estimated to be USD¹ 11 billion in system revenue.

Transition to Software as a Service

An important part of the change of the Content Services market is also that the development is moving increasingly towards cloud-based solutions, where the customers pay for what is used and where costs for development, operations, maintenance, upgrade and support are included in the running agreement. The transition to SaaS is taking place very quickly now and Gartner estimates that the SaaS revenues will reach up to 60 percent of the total sales of software in 2024².

This development is well in line with Formpipe's reality where growing numbers of the Company's customers choose to shift to Formpipe's cloud services for the standard products and with the Company's development of service modules that can process information both from Formpipe's existing systems and other systems.

Business areas

Private sector

In the private sector, the business revolves around the product Lasernet. Through a certified partner network, Formpipe addresses the global market for ERP and banking systems. The most common purchase of Lasernet and Formpipe's complementary offering Autoform DM takes place when implementing, or upgrading to, Microsoft Dynamics 365 in industries such as manufacturing, retail and utilities and Temenos Transact and Infinity in banking and finance. The partner network thus primarily consists of implementation partners of these systems and constitutes a sales and delivery channel for Formpipe's offering.

The cloud-based ERP system Microsoft Dynamics 365 grew by 45 percent in the second quarter of Microsoft's fiscal year 2022. Temenos grew its SaaS business by 30 percent in the third quarter of 2021 with the largest ACV contribution coming from Europe and the United States.

The growth of Formpipe's business in the private sector is based on being included in more and more of Microsoft's and Temenos' business and offering Lasernet and Autoform DM as SaaS. In the Dynamics market, this is done via a globally certified partner network and with Temenos through a strengthened partner relationship.

¹ Enterprise Application Software Forecast Q420, Gartner, Inc. 2020

² Market Trends: Cloud Shift — 2020 Through 2024, Gartner, Inc. 2020

Public Sector

Formpipe's strategy in the public sector is based on the long-term goal of becoming the preferred provider of digital government in the EU.

Hundreds of authorities, municipalities, universities and state- and municipally owned companies today build their public administration around Formpipe's products. Based on Formpipe's market share for its platforms in Denmark and Sweden, the business is growing mainly through additional sales of add-ons to these, which are primarily co-created in customer projects. Customers' needs revolve around the requirements for a more efficient, innovative and data-driven business.

The focus for these add-ons is on business processes linked to record keeping, such as archiveproof and secure digital signatures or an application for collaboration on meeting documents for municipal politicians.

In the Swedish public sector, Formpipe has a stable customer base in municipalities, regions and authorities.

In the Swedish public sector, up to SEK 45 billion is invested in IT every year.

The Swedish government's ambition is for state authorities, municipalities and regions to be the best in the world at using the opportunities of digitalisation to create an efficient public sector - a simpler everyday life for private individuals and companies, more jobs and increased welfare. Digital solutions and automation are an important component for meeting the growing welfare needs and at the same time increasing the service to the citizens.

Formpipe is also a leading supplier of digital government software in the Danish public sector. Digital solutions and automation create opportunities to meet the growing welfare needs and at the same time increase the service to the citizens.

The employers' organization Dansk Industri believes that a modernisation and digitalisation of the public sector can free up DKK 20 billion by 2025. Money that can then be returned to the public sector and contribute to increasing the level of service.

Significant events

January-March

Formpipe acquires Swedish partner Alkemit

Formpipe acquires Alkemit AB, a successful partner for Formpipe's products within the Swedish public sector with SEK 25 million turnover and 19 competent employees. Alkemit has successfully built a delivery organisation around Formpipe's products, offering solution management, development projects and support. Alkemit has verified processes in place that swiftly have increased their business with existing as well as new clients. With the deal, the company increases its competence and capacity to grow its footprint at customers – a step in the long-term strategy to become a 'one-stop-shop vendor' of digital government.

Formpipe acquires 100% of the shares in Alkemit AB. The purchase price amounts to SEK 33 million (Enterprise Value) that is paid in connection with the takeover effective per today and is financed through a combination of own cash (SEK 23 million) and newly issued shares (SEK 10 million to key individuals in the upcoming business). Alkemit's turnover amounted to SEK 25 million with SEK 4 million in operating profit.

Increased number of shares

In connection with the acquisition of Alkemit AB, 238,968 new shares were issued as partial payment. The number of shares and votes in the Company has therefore increased with 238,968 and share capital has increased with SEK 23,896.80. After the issue of new shares, the total number of outstanding shares and votes amounts to 53,965,025 and the share capital amounts to SEK 5,396,502.50.

Formpipe awarded Solution Provider of the Year 2021 by Temenos

Over the past 15 years, Formpipe has continued to develop and grow its partnership with Temenos and can proudly state that Formpipe's software will be among the first partner solutions available on Temenos' cloud platform, Temenos Banking Cloud.

Almost 100 financial institutions are currently using Formpipe's pre-integrated solutions, Lasernet and Autoform DM, both of which are available on Temenos Exchange, (Temenos' marketplace for partner solutions). Formpipe's software provides enriched and branded customer-facing documents and archiving across all channels within the Temenos ecosystem.

Formpipe is proud to be one of Temenos' major revenue-generating solution providers and look forward to continued success together in the future.

April-June

Formpipe signs new agreement regarding maintenance and development services for the City of Malmö

Formpipe has signed an exclusive agreement with the City of Malmö regarding maintenance and further development of the city's case- and document management system, including associated modules. The agreement runs over 10 years and the order value amounts to a minimum of SEK 15 million in the form of a recurring fee for support and management. Including additional fees for new development and adaptations of existing systems, the order value is estimated to amount to approximately SEK 50 million according to Malmö City's estimate.

The case- and document management system Platina by Formpipe has been created and developed in Sweden for the Swedish public sector, a flexible and scalable system that is configured to be able to meet business-specific needs in the public sector.

The agreement has been subject to the usual standstill period within the framework of the rules that apply in a public procurement and enters into force immediately.

Increased number of shares and votes in Formpipe

Following the exercise of the warrant program 2019/2022 new shares have been issued and the number of shares and votes in the company has increased by 252,800 and the share capital has increased by SEK 25,280.

Following this increase, the number of outstanding shares and votes in the company amounts to 54,217,825 and the share capital amounts to SEK 5,421,782.50.

July-September

No significant events have occurred during the period of July-September 2022.

After the end of the period

Formpipe signs a multi-year agreement with the Danish Board of Agriculture to a business value of approximately DKK 80-100 million.

The Danish Board of Agriculture

(Landbrugsstyrelsen) has carried out a procurement regarding continued operation and development of one of the agency's administrative systems. Formpipe has been chosen as the main supplier in a service agreement where Formpipe's responsibility includes development and system maintenance. The assignment is performed in collaboration with a subcontractor with responsibility for system support.

The agreement runs over four years with options to extend with additional three years, and the order value amounts to a minimum of DKK 7 million in the form of a yearly recurring fee to Formpipe for system management and maintenance. Including additional fees for development and adaptations of existing solutions, the order value is estimated to amount to a total of DKK 200-250 million, of which an estimated 40 percent pertains to Formpipe's services.

The agreement is subject to the usual standstill period within the framework of the rules that apply in a public procurement, which means that it may be appealed. The standstill period runs until October 31 2022. Formpipe will notify the market if anything material in the agreement changes or if the agreement is appealed.

Employees

The number of employees at the end of the reporting period totalled to 284 persons (276 persons).

Risks and uncertainty factors

The significant risk and uncertainty factors for the group and the parent company, which include business and financial risks, are described in the annual report for the last financial year. During the period there have been no other changes in the risk and uncertainty factors for the group and the parent company.

Transactions with related parties

No related party transactions have occurred during the period.

Accounting policies

The group's financial reports are prepared in accordance with International Financial Reporting Standards (IFRS) in the way in which they have been adopted by the European Union, the Swedish Annual Accounts Act, RFR 1 Additional Accounting Regulations for Groups issued by the Swedish Financial Reporting Board and in accordance with the regulations that the Stockholm Stock Exchange stipulates for companies listed on Nasdag Stockholm. Preparing financial reports in accordance with IFRS requires that the company management makes accounting evaluations and estimates and makes assumptions that affect the application of the accounting policies and the reported values of assets, liabilities, income and costs. The actual result can differ from these estimates and evaluations. This interim report has been prepared in accordance with IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act. The interim report covers pages 1-20 and the interim report on pages 1-9 is thus an integral part of this financial report. The most important accounting policies according to IFRS, which constitute the accounting standard for the preparation of this interim report, are stated in the company's most recently published annual report.

The financial reports of the parent company have been pre-pared in accordance with the Swedish Annual Accounts Act and RFR 2 Accounting for Legal Entities issued by the Swedish Financial Reporting Board. The same accounting policies and methods of calculation have been applied in the interim report and in the most recent annual report.

About Formpipe

Formpipe Software AB (publ) is a Swedish software company in the field of Content Services (previously Enterprise Content Management, ECM). Several thousand customers in more than 60 countries currently entrust us and our services. O Formpipe.

Segment summary

The Group's segments are divided according to which customer groups they target. The segments are divided into SE Public, DK Public, Private and Other and reflect the Group's internal reporting and follow-up of Group management.

The SE Public and DK Public segments find their customers in Sweden's and Denmark's public sectors. Segment Private collects the Group's offers that are aimed at customers outside the public sector and are not bound to any particular geographic market. Segment Other includes the Group's older products that are not included in any of the other segments and the Group's overhead costs.

In the Group's follow-up on the segments, the intercompany invoicing (revenues and costs) is presented as a net because of the substantial invoicing within the segments related to royalties to IP owning entities. The line Intercompany net includes de intercompany revenues and costs netted out to reflect a more accurate view of the segments.

Acquisition of Alkemit AB

In order to strengthen Formpipe's competence and capacity to create enhanced cooperation with customers within the SE Public business area, a step towards our long-term strategy of becoming a 'one-stop-shop vendor' of digital government, Alkemit AB was acquired on January 1st. Alkemit AB is one of Formpipe's leading partners in the Swedish public sector and has in recent years successfully built a delivery organization around Formpipe's products and offers management, development projects and support. The acquisition pertained to 100% of the shares in Alkemit AB and has affected the Group's balance sheet and cash and cash equivalents as described below at the time of acquisition. Since the acquisition date, Alkemit AB has contributed SEK 14.7 million in sales and SEK 5.0 million in operating profit before depreciation and non-recurring acquisition-related costs (EBITDA).

Goodwill has been recognised at the time of the acquisition and consists of synergy effects and personnel. Adjustments to the carrying amount are represented by acquired surplus values regarding customer relations, technology and brand. In making this adjustment, the effect of deferred tax has also been taken into account. No portion of reported goodwill is anticipated to be income tax deductible.

The acquisition balance sheet is subject to final adjustments no later than one year after the transaction date.

Definitions

Formpipe uses alternative key figures, also called APM (Alternative Performance Measures). Formpipe's APM's are calculated from the financial reports, which are prepared in accordance with applicable rules for financial reporting, where prepared figures are altered by adding or subtracting amounts from the presented numbers. Below the alternative performance measures, that Formpipe uses in published reports, are defined and described

Software revenue

The total of license revenue and revenue from support and maintenance contracts.

Recurring revenue

Revenue of an annually recurring nature such as support and maintenance revenue and revenue from SAAS services regarding license agreements.

Annual recurring revenue (ARR)

Recurring revenue for the period's last month multiplied by 12, to obtain the recurring revenue for the coming 12 months from contracts with recognized revenue.

ARR IN

Initial value for the period's Annual recurring revenue.

Annual Contract Value (ACV)

Annual recurring revenue of the period's won (ACV +) and lost (ACV -) contracts (net).

ARR OUT

Closing value of the period's Annual recurring revenue, provided that all new/lost contracts (ACV) of the period have begun/ceased to be recognized.

FX effect

Revaluation of ARR IN to the closing balance exchange rates.

Fixed operating expenses

Other costs and personnel costs.

Operating expenses

Sales costs, other costs, personnel costs, capitalized development and depreciation.

EBITDA

Earnings before depreciation, amortization, acquisitionrelated costs and other items affecting comparability.

EBITDA-adj.

EBITDA exclusive capitalized work for own account.

Items affecting comparability

The item must be of a material nature to be reported separately and considered undesirable from the regular core operations and complicate the comparison. For example, acquisition-related items, restructuring-related items and write-downs.

EBIT

Operating profit/loss.

Operating margin before depreciation and amortization (EBITDA margin)

Earnings before depreciation, amortization, acquisitionrelated costs and other items affecting comparability as a percentage of net sales.

Operating margin before depreciation and amortization (EBITDA-adj margin)

Earnings before capitalized work for own account, depreciation, amortization, acquisition-related costs and other items affecting comparability as a percentage of net sales.

Operating margin (EBIT margin)

Operating profit/loss as a percentage of net sales.

Profit margin

Net profit/loss after tax as a percentage of sales at the end of the period.

Earnings per share - before dilution

Net profit/loss after tax divided by the average number of shares during the period.

Earnings per share - after dilution

Net proft/loss after tax adjusted for dilution effects divided by the average number of shares after dilution during the period.

Equity per share

Equity at the end of the period divided by the number of shares at the end of the period.

Return on equity

Profit/loss after tax as a percentage of average equity.

Return on working capital

Operating profit/loss as a percentage of average working capital (balance sheet total less non-interest bearing liabilities and cash and bank balances).

Free cash flow

Cash flow from operating activities minus cash flow from investing activities excluding acquisitions.

Net interest-bearing debt

Interest bearing debts minus cash and cash equivalents.

Equity ratio

Equity as a percentage of the balance sheet total.
